

Butte County Election November 2014

Vote YES on Measure A – A is OK

Measure A = reasonable amounts of medical pot per Prop. 215

- ✓ Allows patients to grow a reasonable amount of Medical Marijuana
- ✓ Curtails the out of control, illegal for-profit pot trade
- ✓ Limits the size of pot gardens to 150 sq ft max (= several plants)
- ✓ Lets anyone complain about bad pot grows; protects your anonymity
- ✓ Lets your elected Supervisors represent you to adjust laws with the times

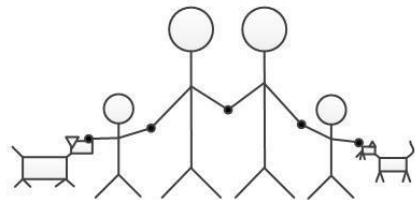

Vote NO on Measure B – B is BAD

Measure B = *insane amounts of pot* for profit = crimes + damage

- ✓ Allows up to 99 plants per parcel (same as today), beyond medical needs
- ✓ Encourages the illegal, pot-for-profit industry to come to Butte County
- ✓ Pretends to be about patients' needs – it's really about growers' profits
- ✓ Will result in continued crimes, environmental damage and nuisance
- ✓ Will continue to let growers "take over" neighborhoods
- ✓ Restricts who can complain – must live within 1500 ft. Code enforcement won't investigate grows unless you file a complaint. ***MANY DON'T COMPLAIN FOR FEAR OF RETALIATION.***
- ✓ Prevents Supervisors from modifying the law in the future. Your elected representatives won't be able represent you! It will require an initiative to change. This can be very expensive; *only those with money will be able to influence the law!* It turns democracy over to the "highest" bidder.

Butte County Election November 2014

What	Ordinance 4075 Measure A	Growers Initiative Measure B
Who can complain?	Anyone <i>Greater anonymity</i>	Must live within 1500 ft <i>Easier to identify complainant</i>
Who can change ordinance?	Board of Supervisors or voter initiative – <i>accessible to all</i>	Voter Initiative only <i>Requires \$\$\$ for campaign</i>

Marijuana Plant Limits

Size	Measure A – by canopy area	Measure B – by plant count
½ acres or less	120 sq ft indoors only 15 ft setback 	120 sq ft indoors only 15 ft setback 
½ - 1.5 acres	1.5 – 5 acres: 50 sq ft 50 ft setback	6 mature/12 total 15 ft setback 
1.5 – 3 acres	50 ft setback 	18 mature/36 total 20 ft setback 
3-5 acres		24 mature/48 total 25 ft setback 
5-10 acres	100 sq ft 75 ft setback 	48 mature/96 total 50 ft setback 
10-20 acres		66 mature/99 total 75 ft setback 
20-40 acres	10+ acres: 150 sq ft 150 ft setback 	72 mature/99 total 100 ft setback 
40+ acres		99 total 100 ft setback 

Plant counts under Measure A are estimates only. Actual yields depend upon many factors. For reference:
 "...50-square-foot garden could hold two reasonably large plants that between them could produce up to 10 pounds of usable cannabis a year. The 100-square-foot garden could hold four plants and the 150-square-foot operation could hold six reasonably large plants." *Source:*
